

NERAC CACHE PROGRAM

NERAC's Regional Cache Program was established in 2007. The Cache Sites are a valuable resource and contain hundreds of items available for use by first responders from NERAC communities. More information regarding equipment stored at the NERAC Cache Sites can be accessed by visiting www.NERAC.us and selecting the Regional Resources tab.

NERAC Cache Program

NERAC established three Regional Cache Sites located in Beverly, Framingham, and Lexington in 2007 to provide the region's municipalities with the critical emergency response equipment necessary to restore infrastructure and care for their citizens during emergencies. Over \$4.1 million has been invested into this system to provide large resources that cannot be justifiably purchased and maintained by individual municipalities.

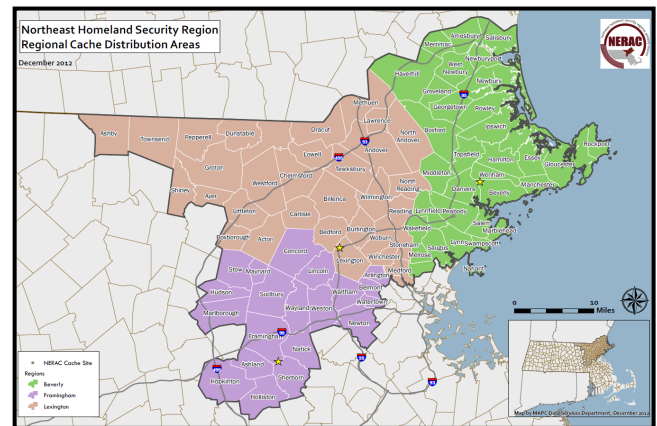

Borrowing Cache Equipment

To borrow cached equipment, please contact the Cache Site located nearest to you:

Beverly: 978-922-5680

Framingham: 508-532-6044

Lexington: 781-862-1618

Functional Needs Support Trailer

Includes Hoyer lift, wheel chairs, and more:

\$17.00 per day

Portable Communications Towers w/ 100' Extendable Antennas

\$97.00 to \$143.00 per day

Sign Boards

40 boards of varying sizes and capabilities

\$15.00 per day

Cache Fee System

- In an effort to ensure that cache equipment is well maintained and remains useful for as long as possible, NERAC has established a nominal daily fee for the use of equipment.
- This fee is calculated as 0.1% of the original purchase price of the equipment (per day). These fees are collected by the cache site hosts and kept in designated accounts to be used for the following:
 - > Equipment inspections
 - > Routine repairs from normal "wear and tear" of equipment
 - > Routine maintenance
